

REASONS TO CHOOSE EACH BOSCA MODEL:

SPIRIT 550

- 1** High Heat Output
Designed to heat a large, open plan home.
- 2** Energy Efficient
Uses less wood to heat your home.
- 3** Customisable
Choose between a stainless steel or a black finish to suit your home.

LIMIT 380

- 1** Affordable
A fully featured fire for an entry level price.
- 2** Modern
Yet retains a traditional charm.
- 3** Blended Heat Output
A clever mix of radiant and convected heat output.

FIREPOINT 360

- 1** Compact
Designed to fit where space is tight.
- 2** Curved
Because there is already too much square in the world.
- 3** Heavy duty
Thicker panels store heat for longer.

ONLY BOSCA HAS ALL OF THESE KEY ADVANTAGES:

BOSCA[®]
REINVENTING THE WOOD FIRE

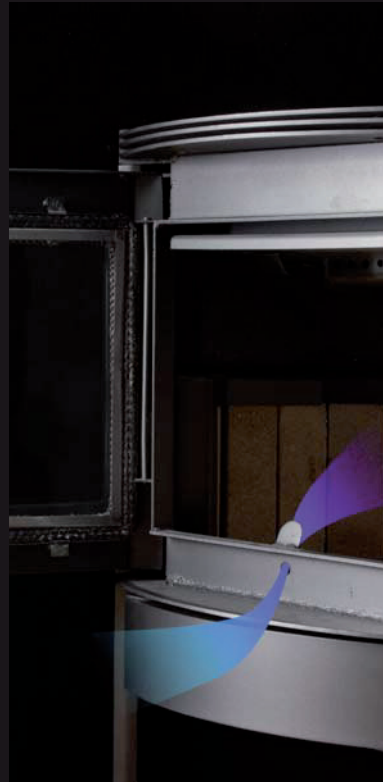

① Contemporary European inspired design

Your fire should be a stylish addition to your room's decor.

② Unique central air injection system

A jet of air is injected into the heart of the fire - achieving a hotter and cleaner burn so you use less wood for a warmer home.

③ Built-in ash pan

Stored within a handy draw, making clean-up the least amount of fuss.

④ Only needs an ash hearth

No need for a bulky and expensive insulated hearth under the fire.
