

## REASONS TO CHOOSE EACH BOSCA MODEL:

**BOSCA**<sup>®</sup>  
REINVENTING THE WOOD FIRE

**SPIRIT550**

**LIMIT380**

**FIREPOINT360**

**1**

### **High Heat Output**

Designed to heat a large, open plan home.

**2**

### **Energy Efficient**

Uses less wood to heat your home.

**3**

### **Customisable**

Choose between a stainless steel or a black finish to suit your home.

**1**

### **Affordable**

A fully featured fire for an entry level price.

**2**

### **Modern**

Yet retains a traditional charm.

**3**

### **Blended Heat Output**

A clever mix of radiant and convected heat output.

**1**

### **Compact**

Designed to fit where space is tight.

**2**

### **Curved**

Because there is already too much square in the world.

**3**

### **Heavy duty**

Thicker panels store heat for longer.

# ONLY BOSCA HAS ALL OF THESE KEY ADVANTAGES:

**BOSCA**<sup>®</sup>  
REINVENTING THE WOOD FIRE

## 1 Contemporary European inspired design

Your fire should be a stylish addition to your room's decor.

## 2 Unique central air injection system

A jet of air is injected into the heart of the fire - achieving a hotter and cleaner burn so you use less wood for a warmer home.

## 3 Built-in ash pan

Stored within a handy draw, making clean-up the least amount of fuss.

## 4 Only needs an ash hearth

No need for a bulky and expensive insulated hearth under the fire.
